EXPERIENCE

Sapphire Digital - Software Engineer

May 2020 - Present

- Partnered with Product and Design to implement new features to improve member registration and conversion on the client facing application.
- Migrated code into a NX workspace (monorepo) to enable us to efficiently share code between applications.
- Added NGRX to reduce API calls, which resulted in a faster & better user experience.
- Developed in Storybook to save developer time and supply the Product and Design teams with a UI to view, tweak and test isolated components.
- Maintained three Angular/.NET Core apps through refactoring, testing and deployments.
- Gathered user behavior data and user feedback using GA, GTM, Optimize, Hotjar and Delighted to create a better experience for our users.

Sapphire Digital (Vitals) - Associate Software Engineer

June 2018 - May 2020

- Contributed to the Angular code base with new features to create a better user experience.
- Created lightweight cron jobs to update the provider database on a weekly basis.
- Enhanced front-end experiences by making it 508 compliant across all modern browsers.
- Contributed to the Patient Review System API to improve interactions for stakeholders.

GETIDA - Software Developer

December 2017 - April 2018

- Developed a single-page web app for sales representatives using Node.js, Express and React.
- Spearheaded a huge reorganization of the GETIDA website to meet Marketing needs.
- Refactored inefficiencies in the code base using more modern approaches/technologies.
- Maintained four JavaScript projects through refactoring, testing and deployment.

Prudential Financial - Senior Group Underwriting Associate

June 2014 - Feb 2017

- Developed two tools in VBA, saving three hours per case by eliminating redundant inputs.
- Actively underwrote hundreds of proposals resulting in millions of dollars in revenue.
- Effectively managed a \$10M+ inforce block to contribute to being named the best region.

SKILLS

- | | | | | | |
|--------------|------------|-------------|----------|-------------|----------------|
| • JavaScript | • Angular | • .NET Core | • Nx | • NGRX | • Tailwind.css |
| • Git | • React.js | • Redux | • jQuery | • Node.js | • Express |
| • HTML | • CSS | • SQL | • Ruby | • Rails | • GTM |
| • GA | • Optimize | • T-SQL | • Jira | • Storybook | |

EDUCATION

App Academy - Web Development

May 2017 - July 2017

- 1000-hour immersive full-stack web development bootcamp with < 3% acceptance rate.
- Topics: OOP, REST, TDD, algorithms, data structures, time/space complexity, etc.

Temple University - BBA, Risk Management and Insurance

August 2011 - May 2014
